Health Systems: Epic, Cerner

PROFESSIONAL EXPERIENCE

RN Surgical Coordinator

Aug 2025 – Present

Midtown Oral & Maxillofacial Surgery

Austin, TX

- Coordinate care for complex surgical cases, ensuring continuity from pre-operative clearance through recovery.
- Serve as a liaison among surgeons, specialists, and patients to support clinical readiness.
- Provide patient education and post-operative guidance to promote safe recovery and adherence.
- Support workflow for 15–25 surgical cases weekly, ensuring high-volume communication and case follow-up.
- Maintain medication inventory and clinical readiness in compliance with safety and emergency protocols.

Nurse Manager

May 2022 – Jan 2025

Reproductive Partners Medical Group

Westminster, CA

- Directed clinical operations for a high-volume specialty center supporting 500+ patient cases annually.
- Supervised and mentored a multidisciplinary team of 10+ staff, improving workflow and care delivery.
- Managed complex patient cases requiring coordination, education, follow-up, and timely escalation.
- Improved patient flow through structured communication and case management processes.
- Ensured adherence to infection control standards and regulatory requirements.

Registered Nurse, Medical Surgical/Telemetry

Sep 2021 – May 2022

Los Alamitos Medical Center (UCI Health)

Los Alamitos, CA

- Delivered bedside care for Med-Surg/Telemetry patients in a fast-paced acute care hospital setting.
- Managed continuous cardiac telemetry and monitored patient condition, escalating care as appropriate.
- Administered medications and treatments in accordance with hospital protocols and safety standards.
- Utilized SBAR communication to support safe handoffs and interdisciplinary coordination.
- Supported discharge planning and patient education to promote safe transitions of care.

Assistant Supervisor / IVF Coordinator

May 2014 – May 2021

Life IVF Center

Irvine, CA

- Supported clinical and laboratory operations in a high-volume specialty setting.
- Provided bilingual patient education and coordination for treatment planning and follow-up care.
